LEGISLATIVE COUNSEL'S DIGEST

AB 158, as amended, Bermudez. ~~Voter registration.~~ *Railroads: safety study.*

Existing law establishes the safety division of the Public Utilities Commission. The safety division is responsible for inspection, surveillance, and investigation of the rights-of-way, facilities, equipment, and operations of railroads and public mass transit guideways, and for enforcing state and federal laws, regulations, orders, and directives relating to transportation of persons or commodities, or both, of any nature or description, by rail. Existing law requires every railroad corporation that transports hazardous materials, as defined, in the state to provide a system map of the state

to the Office of Emergency Services and to the commission showing certain information, to annually submit a copy of its emergency handling guidelines to the office, and to provide specified information in the event of an incident where there is a release or threatened release of a hazardous material. Under existing law, the commission is required to annually report to the Legislature on sites on railroad lines in the state that it finds to be hazardous, including a list of all commodities transported on railroad lines that could pose a hazard to the public or the environment in the event of a train derailment or other accident, a description of the quantities of these commodities, and the locations and routes that these materials are transported, and a list of all railroad derailment accident sites in the state on which accidents have occurred within at least the previous 5 years.

This bill would require the commission to convene a special task force to study certain railroad safety issues and to make recommendations for improving railroad safety measures. The bill would require the commission to include the findings and recommendations of the task force in its next annual report to the Legislature on sites on railroad lines that are found to be hazardous.

~~Existing law requires a county elections official who receives an affidavit of registration in which the affiant fails to identify his or her state of birth to apply a rebuttable presumption that the affiant was born in a state or territory of the United States if the birthplace of the affiant is shown as “United States” or “U.S.A.”~~

~~This bill would provide that the term “U.S.” shall also give rise to a rebuttable presumption that the affiant was born in a state or territory of the United States.~~

State-mandated local program: no.
